Presenting

# The XR Startup Program

Implementation partner

**Honoring our commitment towards supporting young innovators, we bring to you - The XR Startup Program.**

The program aims to accelerate India's contribution towards building the foundations of the metaverse and nurturing the development of Extended Reality (XR) technologies.

**Gujarat University Startup and Entrepreneurship Council (GUSEC)** will be managing the XR Startup Program.

**The Accelerator**

It will nurture and foster 10 early-stage startups working with XR technologies through a 6-month program

**Why choose the Accelerator**

A grant of ₹20,00,000

Mentorship by industry experts and researchers

Access to a network of potential strategic partners and investors, technology and infrastructure support

Opportunities to participate and present at relevant industry events

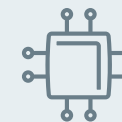

**The Grand Challenge**

It is aimed at supporting early-stage innovators to upscale from the R&D phase to developing workable prototypes and Minimum Viable Products (MVPs) in the fields of **Education, Learning and Skills Sector.**

**What's on offer**

20 shortlisted innovators will receive a grant of ₹50,000 and an opportunity to attend the bootcamp

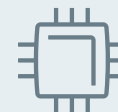

Of this, 4 innovators will be supported with grants worth ₹20,00,000 to help them develop prototypes

Access to a network of potential strategic partners and investors

Mentorship by industry experts and researchers

Technology and infrastructure support

Opportunities to participate and present at industry events

**Let's get started!**
