

Networking can change the game for your XR startup

The **XR Startup Program** aims to discover, nurture, and accelerate XR technology startups across India.

It comprises two components:

Accelerator: Will nurture 10 early-stage startups working with XR technologies through a 6-month program. Each startup to also receive a ₹20 lakh grant.

Grand Challenge: Will help innovators scale up from the R&D phase to developing workable prototypes in the **Education, Learning and Skills sector**. Each selected innovator will get ₹50,000 and the top 4 will get ₹20 lakh in grants.
